Liberals own guns...???

Right here, buddy! I can see 17 of them from my computer.

Of course, like "communist", for some people "liberal" is just a blanket synonym for everything and everyone they don't like. In Germany they used the word "Juden". It's the same thing. You know how that turned out.

Back on topic: I wish American rod makers could or would make their rods for a less extravagant price. Why do premium rods cost about \$300 more than they did 3 years ago?

Anything else go up in price like that, besides Petroleum? (which is now down) Seriously: That makes College and Health Care look like frikk'n pikers. PIKERS, I TELL YA!!!!

And if they need more money, heck just price 'em up around a grand each. If they all collude to do that, maybe they'll re-set the market and tap into a larger revenue stream. Sure, a graphite cone with a cork handle, a reel seat and 7 guides is worth more than a new Winchester Model 70.

They need to do a better job of making good rods for less, not boutique items.
