I fished Lititz Run on Friday afternoon. Air temps were in the 60s. Water was low and clear. I caught three rainbows: one about 19-20", one about 12", and a 10" rainbow that appeared to be wild. I have caught wild rainbows at Lititz Run before, but this was the largest. I only saw two fish rising; however, there was a steady flow of tan caddis (~size 14) coming off all afternoon. I also saw tons of midges and a few BWO. I fished the upper section of the C&R, but I would imagine that fish were rising down by the concrete bridge. Great day to be out, but the ram chased me across the stream for the first time ever.
