URL:

I fished a lot of drake hatches on a lot of PA freestones never using anything more complex than a Gray Fox Variant.

<http://www.gallinago.x.se/watershed/basecamp/000011.html>

It's never let me down.

But as some of the other guys were saying, limestone drakes are a different story.

Usually, when the drakes are on the limestones, I fish a sulfur...:)
