I don't know. What do you want it to be? Keep in mind, I'm talking about the lower end.

There is a lot of talk about it being a great trout fishery destination like the Breeches. It an OK trout fishery like the Breeches.

The dam at Blue Marsh has destroyed the lower end. It been said on here many times about the lack of structure. The vegetation is all but gone in the lower end.

The upper end is so much better. Wild *and* stocked fish, hatches everywhere. Lots of vegetation and structure.

Of course, this thread was about what streams do you think are overrated. Which is all based on ones personal opinions. That is just what it is, my opinion on it. Others may differ.
