I agree that the image of the tully is greater than the stream itself. Others may have heard differently, but I've heard the tully classified as one of the best (if not THE best) stream in this part of the state.

That's overrated in my eyes. I have fished that stream uncountable times. I've been skunked on it, and I've had 25+ fish days. It is overrated in general, IMO.

Oddly enough, it's not very overrated on this message board. People seem to accurately appraise it. It's a very valuable stream, but it's not great.
