But if you are getting ready to do some dries...get those Hoffman's 100's.

And remember....the 100s are noted for being marked as a size bigger than what they actually are. They are also getting a little scarce and I'm buying up closeouts at \$6.50 a pack. Some out of the way fly shops are still selling them at \$11.

Some have told me that Whiting is phasing out the 100s and coming out with a new line. Don't know if it's true or not.
