Adam,

I don't own the 555 but I do have the SA Ultra Mastery Series line that I bought last Fall and in the spring of this year it was cracked on the business end.

This was the first line I bought over \$20 in about 10 years and will be my last. I am sticking with the low end lines from now on. Its amazing that these \$50+ dollar lines are all junk yet they keep coming out with "better ones"

Maurice
