basically i have never used any neo waders . I go through waders like crazy though !! i can say that patagonia watermasters are great . as far as cold water temps . i wear polar fleece thermal underwear . neoprene makes you sweat and makes you feel cold and clammy .. Also the patagonia are onsale at j fisher.com,, and many other places . patagonia and LL beanm have the best customer service . Simms has terrible customer swervice . ll and patagonia ask no questions and give no grief .. Give them a try !!
