Van Cleaver, I grew up a mile from the Pickering. I saw a TINY trout this afternoon below the lower Pickering road bridge (at the old camp) I'm talking about a fingerling. My spinner spooked it and it jumped right next to me. I've heard they breed, and probably in the stream that enters below Merlin Road. I caught a 22" Tiger Trout in the Pickering saturday morning, and saw some kids pull up a 9 inch tiger. I was wondering who's stocking Tigers?
