went down to donegal for a few hours. saw trout rising to midges and bwo's. managed to land one on a #26 black midge parachute and one on a #16 BH psycho pink prince nymph. slow down there with all this cold weather, but the fish are there. and i imagine getting harrassed everyday! 😊 i just got one of the cf design threader boxes. pickin up on my early season midge fishing. all new to me but i have been havin some luck. what do u guys think of those boxes? anyways heading up northeast this weekend. time to do some real wild trout fishing! 🎣
