URL:

Here's one that "ties" the pattern/instructions to hatch information. It is designed for out west, but is still very useful:

<http://www.westfly.com/ento/ento.htm>

This site has some interesting patterns, though some of them only give a picture to help with tying, still....

<http://www.virtualflybox.com/patterns/index.php>

And another:

<http://www.theflybench.com/>

Some good help for beginners, with help moving on as well (a direct link to tutorials for one of the sites Padraic linked):
