The guys on this board are dead on, as usual.

A summation of what they've told you:

- 1) Wear drab clothing
- 2) Stay out of sight -- blend in with your surroundings
- 3) Don't be reckless -- observe first
- 3) Plan your position, cast, drift and pick up -- make sure you have casting room or execute a roll cast
- 4) MAKE THE FIRST CAST COUNT -- rarely do you get another chance with these fish -- don't cast over the fish and don't slam line on the water
