Bob,

Bruce Road is the top of the fly stretch. If you park up there, park near the trail head where all the signs are, don't go to the bottom of the hill on the road. Dave Kile and I picked up a couple fish up there a couple weeks ago but the water temps are cold and the action is slow. I am sure the fish are there...getting them to bite is another story.

There are lots more fish in the open water below the Forks, and from bridgeton to woodbine. Tommorrow the NB gets stocked and next week the SB.

Maurice
