You miss the point JayL... honestly, I could care less what you believe, or do, or don't do... its totally irrelevant. You're just a fake name on the internet (as I am to you).

You have this vision of yourself that you "think" you're actually making a point worthy of debate... and that's funny to me (probably kind of sad to others)... but I'm a little black-hearted when it comes to these things.

Sorry man.
