I live in Chester Springs, ZIP 19425, near Marsh Creek State Park. I went to the Marsh Creek Lake a few times but only caught a few small fish. Any one knows a place within an hour or two from 19425 that I could get big ones - carp, trout or bass? Thank you very much.

If you have information, would you mind letting me know how to get there. A map would be ideal: e-mail: freewangpj@yahoo.com

Regards,

Phil
