Clousers, Deceivers, any pattern that imitates Silversides, peanut bunker, herrring, shad, shrimp, crabs, etc.

Here's the URL for the Atlantic Salt Water Flyrodders(central NJ)salt water fly section. A lot of the patterns have step by step instructions with pictures.

I'm partial to Bob Popovics and Steve Farrar's patterns. You may also want to check a regional board for that area. There may be some local patterns you may want to tie up.
