How Long?

Hi Everyone!

I just started tying a couple months ago. I only have mastered 2 flies so far. That is all I have tried. I can tie a good wooley bugger and bead head hares ear. I tie in gold ribbing and a shell case with my hares ear. I was wondering how long it should be taking me to tie a hares ear. It takes me about 20-30 minutes to tie one. I just want to see where I am at compared to others. Thanks!
