I don't think much of the comparadun styles either. But give this pattern a try:

http://shop.flyfishing.about.com/fly_archive/details/1473.htm

I've found that the local flyshops around here have snowshoe in a variety of colors, white, dun, dark dun, tan etc and varying the colors allows you to imitate a number of hatches. It makes a great rusty spinner (just use rusty spinner dubbing for the body)that is very tough and floats like a cork.
